## PART I – FINANCIAL INFORMATION

### I. Financial Statements

The accompanying interim financial report of Apollo Global Capital, Inc. (formerly: Yehey! Corporation) (“the Company” or “APL”) which comprise the Company’s interim condensed consolidated statements of financial position as of June 30, 2025 and December 31, 2024, and the interim condensed consolidated statements of comprehensive income, interim condensed consolidated statements of changes in equity and interim condensed consolidated statements of cash flows for the three-months period ending June 30, 2025 and 2024 are filed as part of this SEC Form 17-Q.

### II. Management's Discussion and Analysis of Financial Condition and Results of Operations

#### Plan of Operations

The Company’s revenues and cash flow shall be generated from the business operation of its subsidiary, JDVC. On the other hand, JDVC shall generate revenue & income from royalty payment from its contractor-owned vessels, and after the Company’s Follow-On Offering (FOO), from a vessel that the Company plans to partially own as well.

The forecast share of the Company in the profits from its subsidiary’s partially-owned vessels ranges from nine to ten percent (9% to 10%) of gross sales, and the share in royalty fees to be derived from contractor-owned vessels is at ninety-two percent (92%), approximately.

The Company will start with a foreign-owned vessel (MB Siphon I) which is currently wholly-owned by Poet Blue Ocean Offshore Services Pte. Ltd. (PBO), and two (2) contractors in 2021. After the FOO, where majority of the proceeds of the offering will be used to acquire a forty-nine percent (49%) stake in PBO, the Company will effectively have two (2) sources of revenues – one from the 90.47% royalties from JDVC, and second from the 49% ownership of PBO that owns MB Siphon I. The two sources of the future revenues of the Company and JDVC will be sufficient in satisfying the cash requirements of the Group and no further fund-raising is expected in the coming year.

## Notes to the Interim Condensed Consolidated Financial Statements

As at June 30, 2025 and December 31, 2024

For the each of the six-months period ended June 30, 2025 and 2024

---

### 1. Reporting Entity

#### 1.1 Formation and Operations

**APOLLO GLOBAL CAPITAL, INC.** (the Parent Company or APL), formerly known as YEHEY! CORPORATION, was incorporated in the Philippines and registered with the Securities and Exchange Commission (SEC) per SEC Registration No. A199806865 on June 10, 1998. Prior to the approval of the change in the corporate name and its business on October 7, 2016, the Parent Company's primary purpose is to engage in the business of internal online-related products relating to database search engine, such as, but not limited to, conceptualizing, designing, illustrating, processing and editing websites; to engage in other pre-production and postproduction work on websites in the internet; and to sell and market said products in the form of advertising of finished products in the domestic or export market.

On August 9, 2012, the SEC approved the Parent Company's application to list ₱278-million common shares by way of introduction in the second board of the Philippine Stock Exchange (PSE) at an initial price of ₱1 per share. On October 18, 2012, the Parent Company was listed in the PSE.

As of December 31, 2014, the Parent Company is 66.95% owned by Vantage Equities, Inc. (Vantage), a company also incorporated in the Philippines and listed in the PSE. On July 7, 2015, Vantage entered into a Sale and Purchase Agreement (SPA), with third party buyers for the sale of the entire shares owned by Vantage. Under the SPA, the closing of the transfer of the Sale Shares is subject to and conditioned upon the conduct and completion of a mandatory tender offer as well as the payment of the purchase price, which conditions have been complied with on October 15, 2015. Accordingly, on October 15, 2015, the Parent Company ceased as a majority owned subsidiary of Vantage when Vantage sold its shares at ₱290 million to a group of individual shareholders.

Pursuant to the SPA, the Board of Directors (BOD) of the Parent Company approved on October 30, 2015 the assignment of the noncash assets and liabilities of the Parent Company to Vantage. Total amount assigned is a net liability of ₱2,693,438. Such amount was recognized as miscellaneous income in the Parent Company's 2015 separate statement of comprehensive income.

On December 7, 2015, the BOD approved the change of the Parent Company's name from YEHEY! CORPORATION to APOLLO GLOBAL CAPITAL, INC. The amendment was filed with the SEC and was approved on October 7, 2016. Along with the change in the corporate name, the Parent Company's primary purpose was likewise amended to that of a holding company which is to invest in, purchase, or otherwise acquire and own, hold, use, sell, assign, transfer, lease, mortgage, guarantee, exchange, develop, or otherwise dispose of real or personal property of every kind and description, including shares of stock, bonds, debentures, notes, evidences, of indebtedness, and other securities, or obligations of any corporation or corporations, associations, domestic or foreign, and to possess and exercise in respect thereof all the rights, powers and privileges of ownership.

The current registered office address of the Parent Company is located at Unit 504, Galleria Corporate Center, EDSA corner Ortigas Ave., Brgy. Ugong Norte, Quezon City.

## 1.2 Subsidiary Information

JDVC Resources Corporation (referred to as “JDVC” or the “Subsidiary”) was incorporated and registered with the Philippine Securities and Exchange Commission (SEC) on November 24, 2011 under SEC Reg. No. CS201120574. The Subsidiary is primarily established to carry on business of exploring, prospecting and operating mines and quarries of all kind of ores and minerals, metallic and non-metallic, such as nickel, iron, gold, copper, silver, lead, manganese, chromite, molybdenite pyrite, sulfur, silica, kaolin clay, zeolite, perlite, diatomaceous earth, diorite, basalt, gabbro, coal, hydrocarbons, oil, natural gas, etc.; filing, negotiating or applying for mineral agreements, operating agreements, mining leases, timber and water rights and surface rights, and of milling concentrating, processing, refining and smelting such minerals, and manufacturing, utilizing, trading, marketing or selling such mineral products, likewise acquiring and operating all kinds of equipment, vehicles, instruments, machineries, chemicals supplies and other logistic structures that may be vital and necessary for the furtherance of the foregoing purposes, with financial and technical assistance agreement with the government.

The Subsidiary’s principal and administrative office address is at 2nd Floor L&L Bldg., Panay Ave. Cor. EDSA, Quezon City.

On February 17, 2017, the Parent Company and JDVC’s shareholders entered into a Deed of Exchange of Shares where in the former had issued 247,396,071,520 shares (par value of ₱0.01 per share) in exchange for 4,133,740 shares (par value of ₱100 per share) at an exchange price of ₱598.48 of the latter. The deed covering the transaction was approved by SEC on October 9, 2017. As a result of this transaction, the Parent Company owns 82.67% of JDVC.

In December 2019, the Parent Company purchased additional 389,530 shares of JDVC from its existing stockholders for ₱267.6 million resulting to an increase in ownership of JDVC to 90.47%.

PT. JDVC Resources Indonesia (PT. JRI), a recently formed Indonesian subsidiary of JDVC, was incorporated to expand APL’s business operation and to explore possibilities of complementary mining operations in Indonesia, a country also known for its substantial mineral deposits of iron ore. PT. JRI was incorporated with the Indonesian Ministry of Law (similar to the Securities and Exchange Commission in the Philippines) and secured its Deed of Establishment (similar to the Articles of Incorporation in the Philippines) on September 17, 2021. It also obtained a Business License from the Ministry of Investments of Indonesia, which enables it to engage in the three (3) lines of businesses, as follows: (1) Great Trade of Metal Ores, (2) Big Trade of Non-metal Materials, and (3) Wholesale Trade of Solid, Liquid and Gas Fuel and Related Products.

The Parent Company and its subsidiaries are collectively known herein as the “Group”.

## 1.3 Approval on the Release of the Interim Condensed Consolidated Financial Statements

The accompanying interim condensed consolidated financial statements of the Group as at June 30, 2025 (including comparative amounts as at December 31, 2024) were approved and authorized for issue by the Board of Directors on August 13, 2025.

---

## 2. Basis of Preparation

### 2.1 Statement of Compliance

The accompanying interim condensed consolidated financial statements of the Group have been prepared in compliance with Philippine Accounting Standard 34, *Interim Financial Reporting*.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the Group’s annual consolidated financial statements as at and for the year ended December 31, 2024, which have been prepared in accordance with Philippine Financial Reporting Standards (PFRSs).

## 2.2 Going Concern Assumption

The preparation of the accompanying interim condensed consolidated financial statements of the Group is based on the premise that the Group operates on a going concern basis, which contemplate the realization of assets and settlement of liabilities in the normal course of business. The management does not intend to liquidate.

## 2.3 Functional and Presentation Currency

The interim condensed consolidated financial statements are presented in Philippine Peso (₱), the Group's functional and presentation currency.

Items included in the interim condensed consolidated financial statements of the Group are measured using its functional currency. Functional currency is the currency of the primary economic environment in which the Group operates.

## 2.4 Basis of Consolidation

The Group's interim condensed consolidated financial statements comprise the accounts of the Group and its subsidiaries, after the elimination of intercompany transactions. All intercompany assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities under the Group, are eliminated in full on consolidation. Unrealized profits and losses from intercompany transactions that are recognized in assets are also eliminated in full. Intercompany losses that indicate impairment are recognized in the interim condensed consolidated financial statements.

The financial statements of APL are prepared for the same reporting period as that of the Group, using consistent accounting policies.

---

## 3. Changes in Accounting Policies

The Company's accounting policies are consistent with those of the previous financial year, except for the adoption of the following new accounting pronouncements:

### 3.1 Amended Standards Effective in 2024

The following amendments to existing standards are mandatory for the first time for the financial year beginning January 1, 2024:

a.) PAS 1 (amendments), *Classification of Liabilities as Current or Non-current*.

The amendments clarify paragraphs 69 to 76 of PAS 1, Presentation of Financial Statements, to specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- What is meant by a right to defer settlement;
- That a right to defer must exist at the end of the reporting period
- That classification is unaffected by the likelihood that an entity will exercise its deferral right
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification

The adoption of these amendments has had an impact on the Company's disclosures of accounting policies, but not on the measurement, recognition or presentation of any items in the financial statements.

b.) PAS 1 (amendments), *Non-current Liabilities with Covenants*.

The amendments modify the requirements introduced by *Classification of Liabilities as Current or Non-current* on how an entity classifies debt and other financial liabilities as current or non-current in particular circumstances: Only covenants with which an entity is required to comply on or before the reporting date affect the classification of a liability as current or non-current. In

addition, an entity has to disclose information in the notes that enables users of financial statements to understand the risk that non-current liabilities with covenants could become repayable within twelve months.

The adoption of these amendments has no significant impact on the Company's financial statements since the Company's accounting policies are aligned with the amendments.

c.) PAS 7 and PFRS 7 (amendments), *Supplier Finance Arrangements*.

The amendments introduce two new disclosure objectives – one in PAS 7 and another in PFRS 7 – to provide information about its supplier finance arrangements that would enable users (investors) to assess the effects of these arrangements on the Company's liabilities and cash flows, and the Company's exposure to liquidity risk.

The adoption of these amendments has no significant impact on the Company's financial statements, as there are no existing supplier finance arrangements for both reporting periods presented.

d.) PFRS 16 (amendments), *Lease Liability in a Sale and Leaseback*.

The amendments include requirements for sale and leaseback transactions in PFRS 16 to explain how an entity accounts for a sale and leaseback after the date of the transaction. The amendments confirm the following:

- On initial recognition, the seller-lessee includes variable lease payments when it measures a lease liability arising from a sale-leaseback transaction; and
- After initial recognition, the seller-lessee applies the general requirements for subsequent accounting of the lease liability such that it recognizes no gain or loss relating to the right of use it retains.

The adoption of these amendments has no significant impact on the Company's financial statements since the Company's accounting policies are aligned with the amendments.

### 3.2 New and Amended Standards Effective Subsequent to 2024 but not Early Adopted

Pronouncements issued but not yet effective as at December 31, 2024 are listed below. The Company intends to adopt the following pronouncements when they become effective. Except as otherwise indicated, the Company does not expect the adoption of these new pronouncements to have a significant impact on the financial statements.

#### Effective beginning on or after January 1, 2025

a.) PAS 21 (amendments), *Lack of Exchangeability*.

The amendments specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking. The amendments also require disclosure of information that enables users of financial statements to understand the impact of a currency not being exchangeable.

The amendments are effective for annual reporting periods beginning on or after January 1, 2025, with earlier application permitted.

The Company is currently assessing the impact the amendments will have on current practice.

#### Effective beginning on or after January 1, 2026

##### a.) PFRS 9 and PFRS 7 (amendments), *Amendments to the Classification and Measurement of Financial Instruments*.

The amendments clarify that a financial liability is derecognized on the 'settlement date' and introduce an accounting policy option to derecognize financial liabilities that are settled through an electronic payment system before settlement date if certain conditions are met. Other clarifications include:

- clarify how to assess the contractual cash flow characteristics of financial assets that include environmental, social and governance (ESG)-linked features and other similar contingent features.
- clarify the treatment of non-recourse assets and contractually linked instruments.
- introduce additional disclosure requirements in PFRS 7 for financial assets and liabilities with contractual terms that reference a contingent event (including those that are ESG-linked), and equity instruments classified at fair value through other comprehensive income.

The amendments are effective for annual reporting periods beginning on or after January 1, 2026, with earlier application permitted. An entity is required to apply these amendments retrospectively. However, an entity is not required to restate prior periods to reflect the application of the amendments unless it can clearly demonstrate that hindsight has not been used to make those changes.

The Company is currently assessing the impact the amendments will have on current practice.

#### Effective beginning on or after January 1, 2027

##### a.) PFRS 17, *Insurance Contracts*.

PFRS 17 is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, PFRS 17 will replace PFRS 4, *Insurance Contracts*. This new standard on insurance contracts applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. A few scope exceptions will apply.

The overall objective of PFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. In contrast to the requirements in PFRS 4, which are largely based on grandfathering previous local accounting policies, PFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects. The core of PFRS 17 is the general model, supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach)
- A simplified approach (the premium allocation approach) mainly for short-duration contracts

On February 14, 2025, the FSRSC approved the amendment to PFRS 17 Insurance Contracts that sets the new effectivity from January 1, 2025 to January 1, 2027. This is consistent with Circular Letter No. 2025-04 issued by the Insurance Commission which further extends the initial application period by two (2) years. PFRS 17 is effective for reporting periods beginning on or after January 1, 2027, with comparative figures required. Early application is permitted beginning January 1, 2025.

The new standard is not applicable to the Company since it has no activities that are predominantly connected with insurance or issue insurance contracts.

b.) PFRS 18, *Presentation and Disclosure in Financial Statements*.

PFRS 18 is a new accounting standard on presentation and disclosure in financial statements, with a focus on updates to the statement of profit or loss. The key new concepts introduced in PFRS 18 relate to:

- the structure of the statement of profit or loss;
- required disclosures in the financial statements for certain profit or loss performance measures that are reported outside an entity's financial statements (that is, management-defined performance measures); and
- enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general.

PFRS 18 replaces PAS 1, *Presentation of Financial Statements*. Requirements in PAS 1 that are unchanged have been transferred to PFRS 18 and other Standards.

PFRS 18 will apply for reporting periods beginning on or after January 1, 2027, with comparative figures required. Early application is permitted.

The adoption of this standard will have an impact on the Company's presentation and disclosures of its 'operating profit or loss', but not on the recognition or measurement of any items in the financial statements.

c.) PFRS 19, *Subsidiaries without Public Accountability: Disclosures*.

PFRS 19 is a disclosure-only standard that allows eligible subsidiaries to apply reduced disclosure requirements while still adhering to the recognition, measurement, and presentation requirements of other PFRS Accounting Standards.

A subsidiary may choose to apply PFRS 19 provided that it meets the following criteria:

- it does not have public accountability; and
- its parent produces consolidated financial statements that are available for public use under PFRS Accounting Standards.

PFRS 19 will apply for reporting periods beginning on or after January 1, 2027, with earlier application permitted. During the first period in which an entity applies the standard, it is required to disclose comparative information for current year amounts as required by PFRS 19, unless another PFRS accounting standard permits or requires otherwise.

The Company is currently assessing the impact this new standard will have on its current practices.

Deferred

a.) PFRS 10 (amendments), *Consolidated Financial Statements*, and PAS 28 (amendments), *Investments in Associates and Joint Ventures – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*.

The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors' interests in the associate or joint venture.

On January 13, 2020, the FSRSC deferred the original effective date of January 1, 2020 of the said amendments until the IASB completes its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

The amendments are not expected to have a material impact on the financial statements.

### 3.3 Annual Improvements to PFRS Accounting Standards

The annual improvements to PFRS Accounting Standards contain non-urgent but necessary amendments to PFRS Accounting Standards. The amendments are effective for annual periods beginning on or after January 1, 2026, with early application permitted.

- a.) PFRS 1, *First-time Adoption of International Financial Reporting Standards – Hedge Accounting by a First-time Adopter*.

The amendments include cross-references to the qualifying criteria for hedge accounting in PFRS 9. These are intended to address potential confusion arising from an inconsistency between the wording in PFRS 1 and the requirements for hedge accounting in PFRS 9.

- b.) PFRS 7, *Financial Instruments: Disclosures – Gain or Loss on Derecognition*.

The amendments replace the phrase ‘inputs that were not based on observable market data’ with ‘unobservable inputs’ to make the wording consistent with the wording in PFRS 13, *Fair Value Measurements*.

- c.) Guidance on Implementing PFRS 7 *Financial Instruments: Disclosures – Disclosure of Deferred Difference Between Fair Value and Transaction Price and Introduction and Credit Risk Disclosures*.

The amendments to the Guidance on implementing PFRS 7 are as follows:

- clarify that the guidance does not necessarily illustrate all the requirements in the referenced paragraphs of PFRS 7, nor does it create additional requirements;
- made the wording consistent with the requirements in paragraph 28 of PFRS 7 and with the concepts and terminology in PFRS 9 and PFRS 13; and
- simplify the explanation of which aspects of the PFRS Accounting Standards requirements are not illustrated in the example.

- d.) PFRS 9, *Financial Instruments – Lessee Derecognition of Lease Liabilities and Transaction Price*.

The amendments clarify that when a lessee has determined that a lease liability has been extinguished in accordance PFRS 9, the lessee is required to apply paragraph 3.3.3 and recognize any resulting gain or loss in profit or loss.

The amendments also replace the reference to ‘transaction price as defined by PFRS 15 *Revenue from Contracts with Customers*’ with ‘the amount determined by applying PFRS 15’. The term ‘transaction price’ in relation to PFRS 15 was potentially confusing and so it has been removed. The term was also deleted from Appendix A of PFRS 9.

- e.) PFRS 10, *Consolidated Financial Statements – Determination of a ‘De Facto Agent’*.

The amendments clarify that the relationship described in the paragraph B74 of PFRS 10 is just one of various relationships that might exist between the investor and other parties acting as de facto agents of the investor.

- f.) PAS 7, *Statements of Cash Flows– Cost Method*.

The amendments replace the term ‘cost method’ with ‘at cost’, following the prior deletion of the definition of ‘cost method’.

#### 4. Significant Accounting Judgments, Estimates and Assumptions

The preparation of the interim condensed consolidated financial statements requires management to make judgments, estimates and assumptions that affect the application of policies and the amounts reported in the financial statements and accompanying notes. The judgments, estimates and assumptions used in the accompanying financial statements are based upon management's evaluation of relevant facts and circumstances as of the date of the interim condensed consolidated financial statements. Future events may occur which will cause the judgments and assumptions used in arriving at the estimates to change. The effects of any change in judgments and estimates are reflected in the interim condensed consolidated financial statements as they become reasonably determinable.

There were no changes in estimates of amounts reported in prior financial periods that have a material effect in the current interim period.

JDVC was granted by the Department of Environment and Natural Resources (DENR) a Mineral Production Sharing Agreement (MPSA) No. 338-2010-II-OMR covering an area of approximately 14,240 hectares (ha) located within the municipal waters of the Municipalities of Sanchez Mira, Pamplona, Abulug, Ballesteros, Appari, Buguey, and Gonzaga, in the Province of Cagayan for a term of 25 years and renewable for another 25 years.

Originally, the MPSA was granted to Bo Go Resources Mining Corporation (Bo Go) on June 9, 2010. On November 25, 2011, Bo Go executed a deed of assignment (DOA) to transfer to JDVC all its rights and interest in and title to the MPSA. On January 27, 2012, the DOA was approved by the Mines and Geosciences Bureau (MGB) and was duly approved a year after, January 25, 2013, by the DENR.

The DOA, as approved, carries with it the responsibility to implement the Exploration Work Program and the Environmental Work Program which were eventually taken over by JDVC, as well as the submission of the regular Technical/Progress Reports. The Environmental Impact Assessment likewise was completed and presented to the various municipalities and stakeholders in the Province of Cagayan. After the approval of the DENR, pursuant to the agreement, the Subsidiary proceeded to do the Technical or Progress Report Exploration, Environmental Work Programs and Exploration Work Programs.

JDVC, through a DOA, transferred all rights and interest in the 2,400-ha portion of the MPSA No. 338-2010-II-OMR to Sanlorenzo Mines, Inc. The DOA was approved by the DENR on May 20, 2016. The remaining 11,840-ha was redenominated as MPSA No. 338-2010-II-OMR-Amended A.

On March 14, 2017, 3,161.84-ha of the remaining 11,840 ha were relinquished by JDVC in favor of the Government.

On August 9, 2017, the Subsidiary executed DOAs, which was registered with the DENR on April 2, 2018, assigning portion of MPSA No. 338-2010-II-OMR-Amended A as follows:

	Area Assigned (in ha)
Catagayan Iron Sand Mining Resources Corp.	3,182.78
Cagayan Ore Metal Mining Exploration Corp.	2,149.85
Catagayan Mining Resources (Phils.) Inc.	1,448.51

These companies were all incorporated in the Philippines and registered with the SEC on July 1, 2016, primarily to engage on the business of exploring, prospecting and operating mines and quarries of all kind of ores and minerals.

On August 6, 2019, the Declaration of Mining Project Feasibility filed by JDVC last May 25, 2016, was approved by the DENR authorizing JDVC to proceed with the Development and Operating Periods of MPSA No. 338-2010-II-OMR-Amended A covering the 4,999.24-ha, including extraction and commercial disposition of magnetite iron sand and other associated minerals at the offshore areas in the Province of Cagayan.

As at the reporting periods, the remaining 1,897.02-ha contract area of the MPSA No. 338-2010-IIOMR-Amended A which has been fully explored since 2017.

The carrying amount of mine properties approximates its fair values as of March 31, 2024, based on the valuation report conducted by Cuervo Appraisers, Inc. dated February 16, 2022. Hence, the account is not impaired.

#### Mineral Assets

Mineral assets pertain to the acquisition cost of the rights over mineral resources represented by the excess of the fair value of shares issued by the Parent Company over the carrying amount of the net assets of JDVC when the Parent acquired 82.67% ownership JDVC.

#### Patent

Patent was acquired by Agbiag Mining Development Corporation (Agbiag) for the siphon vessel used in the exploration of the mining in Cagayan. Agbiag allows the Group to use its research, study and intellectual property right on a non-exclusive basis, for the duly researched and studied siphon vessel for the offshore magnetite iron sand commercial extraction through a MOA signed on September 2014.

#### Mining Development Costs

Mining costs include the costs incurred in the exploration and evaluation phase of mining. Such costs consist of expenditures related to the exploration of the mines, drilling activities, and other direct costs related to the exploration activities. The recovery of these costs depends upon the success of the exploration activities, the future development of the corresponding mining properties and the extraction of mineral products as these properties shift into commercial operations.

The exploration activities for the mine area of the Group were completed in 2017, hence, the related exploration and evaluation assets were transferred to mine under development. Mine under development are not subject to depletion until the production has commenced.

#### Estimated Units of Production of Mine

The computation of mineral resources was done by a competent individual geologist using the Polygon Method. The mineral resource has a total of 631.707 million tons. With the computed indicated resource,

the mine life for the current mineral resource is 116 years for the siphoning and utilizing magnetic separation on-board of the vessels. With the yearly production schedule of 7.8 million metric tons of raw sand using 3 units of production lines of platform with an average magnetite fraction of 15% to 30% which can yield an iron concentrate of 55% to 62%.

\*Pursuant to Section 4 (bbbb) of Bayanihan II and as implemented under RR No. 25-2020, the net operating loss of the Company incurred for the taxable years 2020 and 2021 can be carried over as a deduction from gross income for the next five (5) consecutive taxable years following the year of such loss. Ordinarily, NOLCO can be carried over as deduction from gross income for the next three (3) consecutive years only.

#### Corporate Recovery and Tax Incentive for Enterprises (CREATE) Act

On March 26, 2021, the President of the Republic of the Philippines signed into law R.A. No. 11534, otherwise known as the Corporate Recovery and Tax Incentives for Enterprises (“CREATE”) Act, which amends certain provisions of the National Internal Revenue Code of 1997, as amended, with veto on certain provisions and shall be effective 15 days after its publication. The CREATE Act seeks to reduce the corporate income tax rate and rationalize the current fiscal incentives by making them time-bound, targeted and performance-based.

Among others, the key changes of the CREATE Act relevant to the Company are as follows:

- Effective July 1, 2020, regular corporate income tax (RCIT) rate is reduced from 30% to 25% for domestic and resident foreign corporations. For domestic corporations with net taxable income not exceeding ₱5.0-million and with total assets not exceeding ₱100-million (excluding land on which the business entity’s office, plant and equipment are situated) during the taxable year, the RCIT rate is reduced to 20%;
- Minimum corporate income tax (MCIT) is reduced from 2% to 1% for the period beginning July 1, 2020 until June 30, 2023;
- Imposition of improperly accumulated earnings tax of 10% is repealed;
- Allowable deduction for interest expense is reduced by 20% (from 33%) of the interest income subjected to final tax.

## 20. Basic Loss Per Share

#### Key Management Personnel Compensation

Since the Group is in its pre-operating stages, there are no key management personnel compensation recognized on June 30, 2025 and 2024, since the officers offer their services pro-bono to save on operating costs. Likewise, the Group does not provide post-employment benefit plans or equity-based compensation benefits to any of its directors or executive officers.

## 22. Commitments and Other Matters

#### Lease Agreements

In 2016, the Subsidiary entered into a cancellable lease agreement with a third party for its office space. The lease term is for a period of 2 years commencing on December 15, 2016 until January 14, 2018. The contract was renewed thereafter but was terminated by the Subsidiary on February 15, 2018. Upon termination of the lease agreement, the Parent Company allows its Subsidiary to use its office space at no cost to the Subsidiary.

In 2019, the Parent Company entered into a lease agreement with a third party for its office space with a term of one year and is renewable upon mutual agreement of both parties. The lease agreement has an escalation clause of 5% per annum upon renewal. Security deposit amounted to ₱61,372 as at June 30, 2025 and December 31, 2024 (see Note 7).

Total expense from these leases amounted to ₱907,887 and ₱547,645 for the period ended June 30, 2025 and 2024, respectively, which was charged to general & administrative costs (see Note 16).

#### Royalty Agreement

On September 1, 2014, JDVC entered in a royalty agreement with Agbiag, operating contractor of JDVC, by granting the latter irrecoverable and unrestricted rights and privileges to occupy, explore, develop, utilize, mine and undertake other activities to the mining area owned by JDVC in various areas in Cagayan Province, for twenty-five (25) years or the life of JDVC's MPSA No. 338-2010-II-OMR with the Republic of the Philippines, whichever is shorter.

All costs and expenses related to the MPSA, commercial extraction permits and such other fees required by the Government and for non-government related expenses which include community expenses and social compliances among others shall be for the account of Agbiag.

As consideration, the Subsidiary shall earn royalty income of US\$4.00 up to US\$9.33 per ton or specifically in accordance with the proposed slide-up-slide-down net share remittance, or size percent (6%) of cost, whichever is shorter. As at June 30, 2025 and December 31, 2024 advance royalty payment from Agbiag amounted to ₱20,793,289 for both June 30, 2025 and December 31, 2024.

In a special meeting held by the BOD on October 10, 2018, it was resolved that due to the failure of both parties to conduct full extraction operation during the year, the advance royalty payment will be returned by JDVC to Agbiag. This was presented under "Advances from contractor" account in the consolidated statements of financial position.

### Social and Environmental Responsibilities

In 2019, the Subsidiary secured the regulatory approvals of the following programs:

#### *Social Development Management Program (SDMP)*

SDMP are five (5) year programs of the projects identified and approved for implementation, in consultation with the host communities. The Group provides an annual budget for SDMP projects that focus on health, education, livelihood, public utilities and socio-cultural preservation. The implementation of the program is monitored by the MGB.

#### *Environmental Protection and Enhancement Program (EPEP)*

EPEP refers to comprehensive and strategic environmental management plan to achieve the environmental management objectives, criteria and commitments including protection and rehabilitation of the affected environment. This program is monitored by the Multipartite Monitoring Team, a group headed by a representative from the Regional MGB and representatives of Local Government Units (LGU), other government agencies, non-government organizations, the church sector and the representatives of the Group.

The Subsidiary will start implementing these programs upon commencement of operations.

### COVID-19 Impact

In early 2020, the world was adversely affected by the COVID-19, which was declared a pandemic by the World Health Organization. In a move to contain the COVID-19 outbreak, the Philippine government initiated directives to impose stringent social distancing measures and guidelines under different levels of community quarantine depending on the assessment of the situation in the numerous parts of the country. These measures have caused disruptions to businesses and economic activities, and its impact on businesses continues to evolve.

The Group's timeline for the commencement of the offshore mining operations were delayed due to limited movement within the region and the start of monsoon season. A mining vessel has already been deployed in the mining tenement and is commissioning the industrial siphon, conducting thorough calibration of the machinery, and performing final tests of the mineral product output prior to dispatch of commercial shipments to customers.

## 23. Fair Value Measurements

### Carrying Amounts and Fair Values by Category

### Fair Value Hierarchy

In accordance with PFRS 13, the fair value of financial assets and financial liabilities on a recurring or non-recurring basis and those financial assets, financial liabilities and non-financial assets not measured at fair value but for which fair value is disclosed with other relevant PFRSs, are categorized into three levels based on the significance of inputs used to measure fair value.

The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and,
- Level 3: inputs for asset or liability that are not based on observable market data (unobservable inputs).

The following table summarizes the fair value hierarchy of the Group's financial assets and liabilities, which are measured at fair value or requires disclosure as prescribed by other PFRSs, as at June 30, 2025 and December 31, 2024:

		June 30, 2025

As at June 30, 2025 and December 31, 2024, there were no financial assets or financial liabilities measured at fair value. There were no transfers between levels in 2025 and 2024.

#### Financial Instruments Not Measured at Fair Value for Which Fair Value is Disclosed

For financial assets with fair values included in Level 1, management considers that the carrying amounts of these financial instruments approximate their fair values due to their short-term duration.

The fair values of financial assets and financial liabilities included in Level 3, which are not traded in an active market, are determined based on the expected cash flows of the underlying net asset or liability base of the instrument where the significant inputs required to determine fair value of such instruments are not based on observable market data.

## 24. Financial Risk Management Policies and Objectives

### Introduction

The Group's principal financial instruments comprise of cash, receivables and payables. The main purpose of these financial instruments is to raise finances for the Group's operations. The risks arising from the use of financial instruments are managed through a process of on-going identification, measurement, and monitoring. This process of risk management is critical to the Group's continuing profitability.

The BOD is ultimately responsible for overall risk management approach, monitoring risk exposures, and approving risk mitigation strategies and policies.

The main risks arising from the Group's financial instruments are interest rate risk, foreign currency risk, credit risk and liquidity risk.

#### Interest Rate Risk

Interest rate risk is the risk that future cash flows from financial instruments or its fair value will fluctuate because of changes in market interest rates. As at June 30, 2024 and December 31, 2023, the Group does not have any repriceable financial instruments subject to variable interest rates. There are no significant interest rate risk exposures since the interest-bearing loans & borrowings are subject to fixed interest rates and all other financial assets and liabilities are non-interest bearing.

#### Credit Risk

Credit risk is the risk that the Group will incur a loss because its customers or counter parties failed to discharge their contractual obligations. The Group trades only with recognized and creditworthy third parties. It is the Group's policy that customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an on-going basis and appropriate credit treatments are executed for overdue accounts. Likewise, other receivable balances are also being monitored and subjected to appropriate actions to manage credit risk.

Generally, the maximum credit risk exposure of financial assets is the carrying amount of the financial assets as shown on the face of the interim condensed consolidated statements of financial position (or in the detailed analysis provided in the notes to the interim condensed consolidated financial statements).

#### *Credit Risk Exposure*

The table below shows the gross maximum exposure to credit risk of the Group as at June 30, 2025 and December 31, 2024, without considering the effects of collaterals and other credit risk mitigation techniques:

	Note/s	June 30, 2025 (Unaudited)	December 31, 2024 (Audited)
Cash in banks	5	₱ 1,176,634	₱ 780,125

Advances to related party	21	89,975	—
<b>Total</b>		<b>₱ 15,786,502</b>	<b>₱ 5,917,018</b>

The credit risk for cash is considered negligible, since the counterparties are reputable banks with high quality external credit ratings. Cash in banks are insured by the Philippine Deposit Insurance Corporation up to a maximum coverage of ₱500,000 per depositor per banking institution.

None of the Group's financial assets are secured by collateral or other credit enhancements, except for cash.

### Credit Quality per Class of Financial Assets

The tables below show a comparison of the credit quality of the Group's financial assets as at June 30, 2025 and December 31, 2024:

The Group evaluates credit quality on the basis of the credit strength of the security and/or counterparty/issuer. High grade financial assets are those which collectability is assured based on past experience. Standard grade financial assets are considered moderately realizable and some accounts which would require some reminder follow-ups to obtain settlement from the counterparty. The Group determines if credit risk have increased significantly when financial assets are more than 30 days past due.

The Group's management considers none of the financial assets to be impaired or past due at the end of each financial reporting period.

*Cash in banks.* The credit risks for cash in banks are considered negligible, since the counterparties are reputable banks with high quality external credit ratings.

*Other financial assets.* These pertain to receivables from counterparties which are not expected to default in settling its obligations, hence there is no perceived credit risk.

### Liquidity Risk

Liquidity risk refers to the risk that the Group will not be able to meet its financial obligations as these fall due. To limit this risk, the Group closely monitors its cash flows and ensures that credit facilities are available to meet its obligations as and when these fall due. The Group also has a committed line of credit that it can access to meet liquidity needs.

### Maturity Profile of Financial Liabilities

The tables below summarize the maturity profile of the Group's financial liabilities as at June 30, 2025 and December 31, 2024 based on the remaining undiscounted contractual cash flows:

As at reporting dates, the Group is experiencing a negative net working capital position. The shareholders support the Group's financing through advancing working capital requirements as they fall due and request extension of payment terms from suppliers or contractors when necessary.

## 25. Capital Management Objectives, Policies, & Procedures

The Group's capital management objectives are:

- To ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value.
- To invest the capital in investments that meet the expected return with the commensurate level of risk exposure.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust dividend payments to shareholders or issue new shares.

The Group monitors its financial leverage using the debt-to-equity which is computed as total liabilities divided by total equity as shown in the table below:

	June 30, 2025 (Unaudited)	December 31, 2024 (Audited)
Total liabilities	₱ 458,166,662	₱ 434,687,192
Total equity	3,910,587,852	3,927,055,782
Debt-to-equity ratio	0.12 : 1	0.11 : 1

The Group is not subject to any externally imposed capital requirements. There were no changes in the Group's approach to capital management during the year.

## 26. Supplemental Disclosure of Cash Flow Information

### Changes in Liabilities Arising from Financing Activities

The disclosure requirements enable users of interim condensed consolidated financial statements to evaluate changes in liabilities arising from financing activities of the Group.

FROM : SAMUEL V. SENDON  
SUBJECT : Summary of Exploration Results for the 2<sup>nd</sup> Quarter 2025 in SEC 17Q

---

JDVC Resources Corporation reports that no field based mineral exploration activities were undertaken during the second quarter of 2025.

Technical planning and preparatory work for upcoming exploration programs are ongoing. The initiation of field operation remains contingent upon the receipt of requisite regulatory approvals, resolutions of logistical parameters, and alignment with corporate strategic priorities.

JDVC maintains its commitment to advancing a disciplined, technically driven exploration strategy in support of the long-term resource development objectives. Further disclosures regarding exploration activities will be provided in subsequent reporting periods as material development occur.
